Summary

Computer Engineering graduate with strong hands-on experience in Java development, SQL programming, and web technologies. Skilled in building dynamic web applications using Java, JDBC, Servlets, JSP, Spring/Spring Boot, HTML, CSS, and JavaScript. Experienced in implementing core CS concepts such as OOP, exception handling, and data structures. Seeking an entry-level Full Stack Developer role to apply my skills, contribute to real-world projects, and grow as a Java-based developer.

Technical Skills

Programming Languages: Java , C, C++ , JavaScript

Framework: Spring, Spring Boot, Hibernate, J2EE (Servlets, JSP), JDBC.

Database: MySQL , NoSQL

Core CS Fundamentals: Object-Oriented Programming(OOP) , Data Structures and Algorithms(DSA) , Exception Handling, Operating System(OS).

Web Technologies: HTML/CSS,JavaScript.

Tools & Dev Practices: Git, GitHub, IntelliJ IDEA, VS Code, Eclipse.

Experience

Software Development Intern (Full-Time) | PIPRAN INFOTECH PVT.LTD

March 2025 – August 2025

- Generated basic Java tools for internal use, focusing on data input, validation, and file handling using core Java concepts like loops and arrays.
- Applied OOP principles such as classes, inheritance, and exception handling in Java, creating 3+ small programs to improve modularity and readability.
- Wrote and tested 15+ SQL queries to support data retrieval and updates from relational databases, assisting the team with backend testing and reporting.
- Created 4+ simple web pages using HTML, CSS, and JavaScript, contributing to the development of basic forms and layouts for internal tools

Insurance Domain - Internship Project

- Part of a 5-member team working on a web-based application to manage customer records, policy creation, and claims tracking for an insurance provider.
- Designed and developed 4+ frontend screens using HTML, CSS, and JavaScript, including forms for customer registration and policy search.
- Wrote 10+ SQL queries to fetch, insert, and update customer and policy data in SQL Server, supporting internal testing and UI validations.
- Used JDBC in 5+ Java modules to establish database connections and test basic CRUD operations during development.

Final Year Academic Project

E-Bill Splitter for Roommates | Java, MySQL, JDBC, Swing

October 2024

- Built a desktop app to manage and split shared expenses like rent, groceries, and utilities among roommates.
- Developed 6+ modules for adding expenses, registering members, calculating dues, and tracking settlements using Java and MySQL.
- Used Java Swing for GUI design and JDBC for seamless database connectivity and real-time balance tracking.
- Normalized SQL tables (members, expenses, shares, settlements) and applied SQL joins for accurate dues calculation.
- Showed who owes how much in real-time using Java logic and SQL queries.

Certifications

• Core Java & DSA | Softra Systems

• MYSQL | Softra System

Education

Pad. Vasantraodada Patil Institute of Technology, Budhgaon, Sangli

December 2021 – July 2025

Bachelor's Degree in Computer Engineering | 7.18 CGPA
