Professional Summary

- Java Developer with strong expertise in Core Java, J2EE, and frameworks such as Spring, Spring Boot, and Hibernate.
- Actively involved in the development of applications and POCs using modern Java technologies.
- Possess a solid understanding of RESTful APIs, including design, implementation, and integration.
- Strong troubleshooting and debugging skills and Familiar with design patterns and Efficient in handling SQL queries.
- Experienced in working within cross-cultural team environments, with excellent coordination and communication skills.
- A proactive learner who enjoys knowledge transfer (KT), continuous improvement, and staying aligned with current technology trends, including AI-driven advancements.

Technical Skills

Programming Languages: Java, Python, C, C++, JavaScript

Framework: Spring, Spring Boot, Hibernate, J2EE (Servlets, JSP), JDBC

Database: MySQL, NoSQL

AI & Automation: Python for automation, Basic understanding of AI concepts (LLMs, prompt engineering).

Core CS Fundamentals: Object-Oriented Programming (OOP), Data Structures and Algorithms (DSA), Exception Handling, Operating System (OS)

Web Technologies: HTML/CSS, JavaScript, React.js

Tools & Dev Practices: Git, GitHub, IntelliJ IDEA, VS Code, Eclipse

Experience

Software Engineer Intern | Pipran Infotech Pvt.Ltd

July 2025 – December 2025

- Generated basic Java tools for internal use, focusing on data input, validation, and file handling using core Java concepts like loops and arrays.
- Applied OOP principles such as classes, inheritance, and exception handling in Java, creating 3+ small programs to improve modularity and readability.
- Wrote and tested 15+ SQL queries to support data retrieval and updates from relational databases, assisting the team with backend testing and reporting.
- Created 4+ simple web pages using HTML, CSS, and JavaScript, contributing to the development of basic forms and layouts for internal tools

Insurance Domain - Internship Project

- Part of a 5-member team working on a web-based application to manage customer records, policy creation, and claims tracking for an insurance provider.
- Wrote 10+ SQL queries to fetch, insert, and update customer and policy data in SQL Server, supporting internal testing and UI validations.
- Used JDBC in 5+ Java modules to establish database connections and test basic CRUD operations during development.

Final Year Academic Project

E-Bill Splitter for Roommates | Java, MySQL, JDBC, Swing

October 2024

- Built a desktop app to manage and split shared expenses like rent, groceries, and utilities among roommates.
- Developed 6+ modules for adding expenses, registering members, calculating dues, and tracking settlements using Java and MySQL.
- Used Java Swing for GUI design and JDBC for seamless database connectivity and real-time balance tracking.
- Normalized SQL tables (members, expenses, shares, settlements) and applied SQL joins for accurate dues calculation.

Certifications

• **Java Full Stack & DSA | Softra Tech Academy**

• **MYSQL | Softra Tech Academy**

Education

Pad. Vasantraodada Patil Institute of Technology, Budhgaon, Sangli

December 2021 – July 2025

Bachelor's Degree in Computer Engineering | 7.18 CGPA
